REMARKABLE HOLDUP MORE DIE IN BATTLE

Bold Work of Three Social Revolutionaries.

Two Soldiers Killed to One Who Expired From Disease.

MADE PRINTERS SET BEST RECORD MADE

Their Paper by Intimidating Compositors With Revolvers, Then Compelled the Pressman to Print It.

Report of Colonel Hoff States That Slain and Dead From Wounds Were Double Those Succumbing to Maladies.

St. Petersburg, Nov. 22.—The Novoe Vremya was the victim of a remarkable hold up by Social revolutionaries. Three editors of the Workmen's Gazette, the official organ of the workingmen's council, entered the composing room of the Novoe Vremya with revolvers in their hands and compelled the compositors to set up their paper, making prisoners of such persons who entered the room. Descending to the press room the visitors compelled the pressmen to run off 30,000 copies of the Workmen's Gazette.

M. Souvolrine, editor of the Novoe Vremya, in an editorial on the subject, says sarcastically: "If men can, with impunity, raid a newspaper in the heart of St. Petersburg, tomorrow they may make a prisoner of Count Witte."

An afternoon paper quotes a man who has just arrived in St. Petersburg as saying that 10,000 Don Cossacks are marching from Tashkend to St. Petersburg with the object of realising the emperor, whom they believe to be a captive in the hands of the Jews.

RESERVISTS REBEL.

This Action Following Failure to Secure Better Food.

St. Petersburg, Nov. 22.—Private advices from Gomel, in the government of that name, say that a battalion of reservists, 1,000 strong, mutinied following a demand for better food.

Talk of Serfdom.

Vologoda, Russia, Nov. 22.—A rumor is being spread among the peasantry here that serfdom will be re-established, and the peasants are talking of killing the land owners.

First Time In Several Days.

St. Petersburg, Nov. 22.—The newspapers of this city appeared Tuesday for the first time in over a week.

BLOWN TO PIECES.

Four Men In Powder Factory Torn Into Atoms.

South River, N. J., Nov. 22.—Four men were blown to pieces by an explosion at the laboratory of the International Smokeless Powder and Chemical company at Parlin. They were John Pierce, Frank Spraford, John Applegate and J. W. Redpath, superintendent of the laboratory.

What caused the explosion will never be known as only the four men were in the building at the time. The building was a one-story frame structure and because of the liability to explosions was separated from all others in the plant except a storehouse, which caught fire and was burned.

DOG DECREASE.

Seventy Canines Have Been Hanged, Drowned or Shot.

Hackettstown, N. J., Nov. 22.—In the last three days seventy dogs, two-thirds of the dog population of this town, have been hanged, drowned or shot. The extermination is due to the death of three-year-old Mary Harris and the fear of a hydrophobia epidemic.

The girl was bitten by a dog on Oct 26 and the physicians found that she had hydrophobia.

COSTLY KISS.

Miss Alla Hamilton Values It at Ten Thousand Dollars.

Des Moines, Ia., Nov. 22.—Miss Alla Hamilton thinks the kiss she alleges Hayden Marquis, a wealthy young man, stole from her, is worth \$10,000. At least that is the amount of damages she demands in a petition filed in the district court. The suit will come to trial at the January term. Marquis is the son of D. W. Marquis, reputed to be a millionaire.

VOTED TWICE.

As a Result He Will Be an Inmate of Sing Sing Prison.

New York, Nov. 22.—The first sentence for illegal voting at New York's recent election was passed upon Edward Meade. He was sentenced to Sing Sing prison for not less than two years, nor more than three years and six months. He pleaded guilty to voting twice on election day.

Wife Shot, Husband Missing.

New York, Nov. 22.—Mrs. Patrick J. McDermott, wife of the well known teacher of boxing, was shot and badly injured at her home in Brooklyn. The police are looking for her husband, from whom the woman separated some time.

Salmons' Successor.

Washington, Nov. 22.—Secretary Wilson appointed Dr. A. D. Melvin of Illinois as chief of the bureau of animal industry, succeeding Dr. Salmons.

TO AVOID CONGESTION.

Every Effort Will Be Made to Scatter Italian Emigrants.

Rome, Nov. 22.—Inspector Adolfo Rossi, special representative of the Italian government for emigration, now in the United States, sent his government an important report of an interview which he had with President Roosevelt on Nov. 9. The inspector says the president promised to do everything possible to prevent congestion of Italian emigrants in large towns and cause them instead to be spread throughout the agricultural regions, where they can best serve themselves and the United States. Successful experiments in this direction, the inspector adds, have been made.

From the report of Chevalier Fornì, Italian consul at New Orleans, it appears that Texas offers good ground for emigration. The consul urges the government to promote Italian emigration to Texas.

ACTED UPON.

Several Recommendations Adopted by American Federation of Labor.

Pittsburg, Nov. 22.—American Federation of Labor adopted the following recommendations of President Gom-pers:

Exclusion of Chinese, Japanese and Korean labor from this country, and its possessions; prohibiting employment of child labor; intrusting executive council to select one labor organization against which an injunction has been granted to employ competent legal talent and carry the case to the United States supreme court to test the constitutionality of injunction laws now in force; pledging support to striking printers.

AGENCY SYSTEM.

Tarbell Submits a Specimen of Contracts of Equitable.

New York, Nov. 22.—Second Vice President Tarbell of the Equitable Life Assurance society submitted to the insurance investigation committee a specimen of the contracts made by his company with agents, which was offered in evidence, and also letters of reference in evidence, as were also letters which accompany contracts explanatory of allowance of commissions.

Cited to Appear.

Albany, Nov. 22.—William S. Manning of Albany, referred to at Tuesday's session of the insurance investigation as "Mr. Depew's cantankerous friend, who gets around once a year," and who gave out an interview here asking Mr. Hughes to put him on the stand, has been subpoenaed to appear before the insurance commission.

MONEY GOES.

Nearly Two Million Dollars to Be Shipped From San Francisco.

San Francisco, Nov. 22.—Nearly \$2,000,000 in money will be taken out for the orient by the Pacific Mail liner China, sailing on Saturday next. Three-fourths of this, consisting of fifty tons of Mexican dollars, and valued at \$1,500,000, is already aboard the China and under strong guard. Such a shipment of coin has not been sent in a liner for many months. Most of this silver is consigned to Shanghai. The China also will take a full cargo of freight and many passengers.

GIRLS' NARROW ESCAPE.

Twenty-Five Dropped From Third Story Windows Without Injury.

Lawrence, Mass., Nov. 22.—Four hundred girls had a narrow escape Wednesday from fire, which broke out in the French parochial school. Twenty-five of them dropped from third story windows and all were caught without injury.

Ordered to Canton.

Manila, Nov. 22.—The "first torpedo flotilla, now at the Asiatic station, has been ordered to Canton.

APPRECIATED IN NASHVILLE.

The Rev. J. Wendel Davis has announced his intention of resigning his office as assistant rector of Christ church in the near future.

Mr. Davis has been for the past year the director of the Brotherhood of St. Andrew. His resignation is very much regretted as he leaves the Brotherhood in its zenith of popularity and usefulness as a religious organization.

It is due to his ability and perseverance that the Junior Chapter has attained the height of success and prosperity which it now enjoys.

'Tis a high tribute to him that the interest he manifested in the boys and their work, awoke a natural feeling and cemented the bonds of friendship in a firmer union.—The Adelpian, Nashville, Tenn.

Rev. Davis recently entered upon the duties of rector of St. Andrew's Episcopal church of Bryan with earnestness and ability, and has won the esteem and confidence of all with whom he has been associated.

STRONG EVIDENCE OF FAITH.

E. J. Jenkins Guarantees That Hyomei Will Cure the Worst Case of Catarrh in Bryan.

When one of the most reputable druggists in Bryan guarantees that a medicine will effect a cure or he will refund the money, it speaks volumes as to the merits of that remedy. It is in this way that E. J. Jenkins is selling Hyomei, the treatment that has made so many cures of both acute and chronic cases of catarrh in Bryan and vicinity.

Hyomei is not a pill, nor is it a liquid that has to be taken with a tablespoon or wineglass. Just breathe it by the aid of an inhaler that comes with every outfit, and benefit will be seen from the first treatment.

It destroys all germ life in the air passages and lungs, and enriches and purifies the blood with additional ozone. It cures catarrh of the head and throat, or of the stomach, liver and kidneys. Wherever mucous membrane contains catarrhal germs, there Hyomei will do its work of healing. When using this treatment, the air you breathe will be found like that on the mountains high above the sea level, where grow balsamic trees and plants which make the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

The complete Hyomei outfit costs but \$1.00, and includes an inhaler, dropper and sufficient Hyomei for several weeks' treatment.

Remember that if Hyomei does not cure you, E. J. Jenkins will refund your money. This is a good time to cure catarrh by this natural method and prevent catarrhal colds that are so common at this season.

ADDITIONAL LOCAL

Elbert Moore of Edge was in the city yesterday.

THIS MEANS MONEY TO YOU!

With the vast improvement in my Jewelry Establishment, which includes handsome new plate glass show windows, finished in white enamel, the newest and most up-to-date fixtures, and the large increase in my stock of goods, I have determined on and after December 1, 1905, to

SELL FOR CASH AND CASH ONLY

If any business in the world should be conducted on a Cash basis it is the Jewelry business, and in justice to myself and my friends and customers I have fully determined to make this change and make it permanent. No man can sell goods for cash and on credit at the same price and succeed. Accumulating accounts not only consume all the profits but make inroads on the capital invested. I have had enough of this sort of experience and hereafter will make

ONE CASH PRICE TO ALL!

NO BOOKS, NO TICKETS, NO BILL COLLECTING.

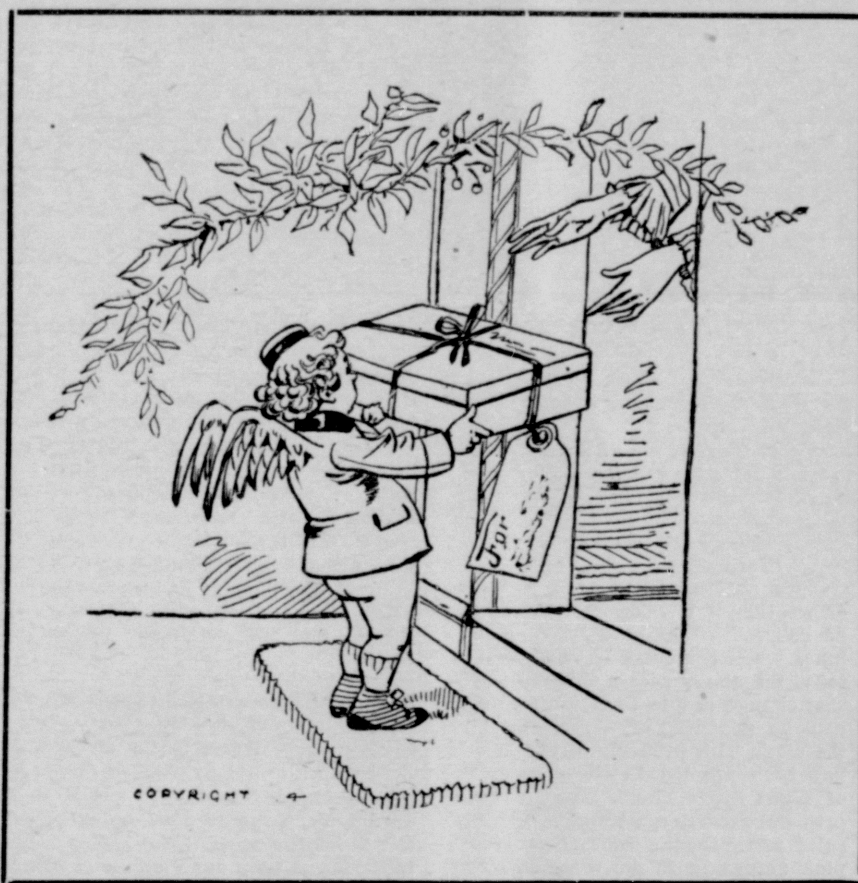

You get the goods and I get the cash on the spot and the transaction is closed. By this means I will be able to sell all classes of goods cheaper because I will get my money immediately, turn it over oftener at smaller profits and conduct my business with less expense and loss of time. Having made the proposition plain to you and showed how its advantages are mutual, I heartily thank you one and all for the patronage of the past and invite you to come and see one of

THE HANDSOMEST JEWELRY STORES

to be found in any of the smaller cities of the State. No trouble to show goods—in fact our windows and show cases do this to perfection. You will find a splendid assortment hereinafter enumerated, and lowest prices you have ever seen.

IT IS NOT TOO EARLY

To come in and buy now before the Holiday Rush gets on. You will have more time to make selections, and we are making the prices bed rock right from the "jump." Our goods are all marked in plain figures and any child can trade here as well as a grown person. The prices are the same and every customer is treated alike. We guarantee satisfaction.

A nice line of SOUVENIRS will be GINEN AWAY during this opening. Goods are being opened and arranged in our cases as fast as possible, prior to our opening, and will gladly show you what you want, if not in sight, for the asking. I want everyone to come and see us this fall, even if you do not buy. We are anxious to show you through our line. If I have an enemy I am sure I do not know it, and if I have failed to please all my friends in the past, I will do my best to treat you with a display of the best, finest, yet cheapest lot of goods ever shown in Bryan. Our goods and prices will please you—they cannot fail.

JOHN M. CALDWELL

A. & M. COLLEGE BOYS.

Classes Gone to San Antonio to Study Chemical and Engineering Processes.

Prof. A. A. Haskell of the department of chemistry, and W. G. Drummond of the mechanical engineering department left Tuesday for San Antonio along with their senior class in industrial chemistry and mechanics. The purpose of the trip is purely educational, the low railroad rates to San Antonio on account of the fair offering a favorable opportunity to make the trip with the least expense. The classes will study in detail the chemical processes and mechanical engineering problems connected with a number of industrial enterprises, such as iron foundries, water works, gas and coke works, breweries, flouring mills. They will also make a study of the machinery on exhibit at the fair. Each student will be required to make careful notes on what he sees and on his return to college will prepare a paper explaining fully the process involved in each industry. It is believed that very valuable lessons are learned by the careful study of the industries in actual operation. Other trips are being planned to oil and sugar refineries and related lines of industry.

Prof. F. R. Marshall of the department of animal husbandry in the Agricultural and Mechanical College is now in San Antonio with his team of student stock judges. These men will enter a contest in stock judging for prizes aggregating \$100, which is set apart by the Fair Association for this purpose. There will be three classes of animals to be judged, cattle constituting one class, horses and sheep a second class and swine the third. Thirty-three dollars of prize money will be set apart for the contest in each class divided into three prizes of \$15, \$10 and \$8, for the best three men in each group.

After the contest Prof. Marshall will devote a considerable part of his time at the fair to class work, using the fine stock on exhibition as specimens of the various breeds and types of animals. In this way he hopes to make good in some degree the deficiency in fine stock for instructional purposes at the college, and at the same time put the finishing touches on the work of his class. From this class will be chosen the five best men to go to Chicago next month to represent Texas in the great international intercollegiate stock judging contest. Last year the Texans won second place in that contest, being beaten by the Ohio team by the narrow margin of 12 points out of a possible 1,000.

AN ACCOUNT OF KING NOTTOC.

Who was an Old A. & M. Man—Career of Col. J. S. Rice, Who Ruled During Carnival.

Col. J. S. Rice, the king, is a native Texan, having been born in Houston when it was only a smart village. His education was the result of attending local schools and the Agricultural and Mechanical College, where his first military and industrial ideas were implanted. His nature, aptitude and mental vigor formed a soil in which the young ideas grew to wonderful development and today he is properly considered one of the first men of Texas. His name mentioned in connection with gubernatorial honors has always created the heartiest enthusiasm, and but for his own modesty he might have been in the race and a winner a few years ago. Shortly after his return from college he became identified with the Houston Light Guard and later became Captain, backed by the solid support of that company in those old days for anything he wanted in military, civic, social, political or business life. After a few years with the company he retired from active work. At one time he was financial agent of the penitentiary for a few years and resigned to engage in private business. Under this head he was interested in a lumber mill at Hyatt, Tex. He is now one of the joint receivers of the Kirby Lumber Company, headquarters in this city, where he has a beautiful home at 2304 Crawford street, in the Third ward, and is the head of a charming family composed of his wife and four bright children. He has large realty holdings in Eastern Texas, and up in the Pandhandle country has half interest in 10,000 acres of irrigated agricultural domain. He is also president of the Union Trust Company, capital stock \$500,000, of this city. He is the eldest son of the late Fred A. Rice, a pioneer settler of this city and section.—The Battalion.

FOOTBALL MADE PAINLESS.

This is an age in which painless surgery and dentistry are being almost perfected by the medical authorities who have given this work a careful study. It seems probable that an attempt will be made to lessen the roughness and pain of football. Though this game is not the outcome of natural conditions imposed upon us by nature, as surgery and dentistry, yet it is liable to be with the human race as long as the debt which nature collects from us promises to be. Ever since the history of man gives an insight to his actions we read of the sport; the hardy and generally the cruel sport, he has indulged in from time to time, first taking form in the gladiatorial combats of Rome. This became so repulsive, as civilization awoke, that this form of cruelty was prohibited. But the insatiable desire of man for excitement could not be without sport of some kind so the gladiators gave way to our modern football men, and the game of today really came from the dark ages. We read of it long ago in England during the reign of Edward III when a statute was enacted to prohibit its brutality. Henry VIII and Elizabeth passed laws against it making imprisonment the penalty. But still it has survived.

From the many attacks upon it of late it seems very likely that some very radical changes will be made in the game, if it lives, and there is little doubt that it will. The points which have caused the rules committees and the leading men of sport to recognize these protests have been, not the usual cruelty of the game, but the slugging and unfair tactics which the public hardly ever see. Mr. Reid, Harvard's head coach, is the first football man of the time to openly side with President Roosevelt and President Eliot. So no doubt the game will be changed and the country will enter upon an era of football, if not altogether painless, at least much modified in roughness.—The Battalion.

A NECESSARY PRECAUTION.

An American at New Brighton one day was looking at the Tower when he was accosted by a local man.

"Ah, my friend, that is a beautiful tower, and I doubt if you have anything to beat it in America."

"Wal, stranger," replied the American, "I guess it is good for New Brighton. But in America we have a tower so high that we have to lower the top at night."

"Lower the top at night," replied the New Brighton man. "For what reason?"

"Wal, just to let the moon pass, stranger! Good day!"

Cloth Dyed With Cobalt.

Cloth changes color with a change of weather if it is dyed with chloride of cobalt. In clear weather it is a blue, when a change is near it turns to violet and for rain to bright pink. The change is due to moisture, and it can be produced by breathing upon the cloth. This property of cobalt salts has been applied to the construction of floral hygrometers. The petals of artificial flowers are tinted with cobalt salts and vary in color from blue to pink according to the weather. Their action is different from that of a barometer, which indicates a change of pressure of the atmosphere and is also usually behind the change of weather. The barometer indicates the cause of the storm, and the colored cloth shows its effect.

Clean Spectacles.

Oculists will agree that many persons who wear spectacles, although the lenses may be perfectly adapted to the needs of the eye, suffer much inconvenience and possibly ultimate damage simply through not keeping their glasses clean. Students and writers, lawyers and clergymen, business men and school children who use glasses rarely keep them clean, and from their cloudy and grimy state serious injury results to the eyesight. The glasses should be frequently cleaned with alcohol, which is preferable to water, and either tissue paper or camels leather is better than the usual handkerchief.

First Use of "Magazine."

"Magazine," properly a storehouse (Arabian), has been annexed by literature, but it is interesting to assist at the birth of its now common literary use—in that venerable periodical, the Gentleman's Magazine. In the introduction to its number (1731) we read, "This consideration has induced several gentlemen to treasure up, as in a magazine, the most remarkable pieces on the subjects above mentioned."—London Times.

Mean Thing.

"No," said Miss Passay, "I don't like the photos Kammer made for me. They make me look like a woman of forty." "Well," replied Miss Pepprey, "you should have told him not to touch them up if you didn't want them to look so youthful."—Philadelphia Press.

A Hard Cut.

Mr. Jawback—Why are you not wearing your wedding ring? Mrs. Jawback—I wore it out doing housework!—Cleveland Leader.

An old Chinese proverb says, "Be very appreciative, and the people you admire will spit in your face."

Shall We All Die of Thirst?

After telling of the gradual drying up of the great lakes and rivers all over the world in an article in Chambers' Journal, J. T. Whitby continues:

"Everywhere in our own country, as in others, water springs are giving out and water beds drying up, slowly perhaps, but surely. The increase of population and the modern system of drainage have of course a great deal to answer for, but much of the drought is undoubtedly caused by the rapid destruction of timber on all sides, for trees not only attract rain clouds, but preserve the moisture of the soil. While it is impossible for puny man to control the geological period through which we are passing and whose characteristics would be, according to some, the gradual disappearance of water, it may be inquired whether it would not be advisable to postpone that disagreeable moment of a world without water as far as possible by the better preservation of our woods and forests and the persistent replanting of trees."

Raw White Potato For Inflamed Eye.

The writer wishes to testify, from his own experience, to the efficacy of the raw white potato when used for irritated and inflamed eyes. It is used as follows, but care must be exercised not to let the juice of the potato come into contact with any cloth or clothing, which it will ruin by turning black. The potato to be used should be pared and then scraped with a spoon into small fragments and a little water added. This should be laid upon a cloth which has been placed over the eyes, and then the patient should open and close his eyes as much as possible so as to allow the liquid to have its effect directly upon the eyeball. The patient will find great relief in this effective but inexpensive treatment. Of course the patient must be and remain in a reclining position.—Stanley R. Walbridge in Detroit News-Tribune.

Softening the Blow.

A young Virginia woman who was very ill was approached by her colored servant, who said, "Miss May, mah mothah dun had a cousin what had de same ailments what you dun got." "Is that so, Cora?" replied the lady. "Yes-sum," responded Cora, encouraged, "but mah mothah's cousin she died, 'deed she did." "Well, Cora," said her mistress, angry that she should tell her such a tale at such an inopportune time, "if that's all you have to say to me you can leave the room and don't come in again. I don't want to hear such stories." Cora was thoroughly frightened at what she had done and wished to ameliorate her ill chosen story, so she thought for a moment and, turning to go, said, "Well, Miss May, mah mothah tole me she died mighty easy."

Points About Pins.

Thorns were originally used in fastening garments together. Pins did not immediately succeed thorns as fasteners, but different appliances were used, such as hooks, buckles and laces. It was the latter half of the fifteenth century before pins were used in Great Britain. When first manufactured in England the iron wire of the proper length was filed to a point and the other extremity twisted into a head. This was a slow process, and 400 or 500 pins was a good day's work for an expert hand. The United States has the credit of inventing the first machine for making pins. This was in 1824. The inventor was one Lemuel Wellman Wright.

W. H. Kelley, E. W. Williams and family, George Crow, Gaston Palmer and family, Tom May and family and others were here yesterday from Madison county.

Work on the new warehouse is very rapidly nearing completion and it will soon be ready for use.—The Battalion.

Joe Merka and Joe Kopecky of Rye returned yesterday from a trip to Cody, near Spring, on the I. & G. N.

Not long ago there appeared in the Galveston News, under the head of "Patents Granted to Texans," the name of A. J. Neff, cable grip. This is A. J. Neff of the class of 1903, Mechanical Engineering. He is with the Southern Pacific system in the creosote works at Houston and the above notice in the daily paper tells only a small part of the story. By using this cable grip in drawing the car of lumber into the creosoting cylinder it was found possible to dispense with the use of six mules and a driver beside so expediting the work of running the whole plant as to require only a day gang to do the work formerly needing twenty-four hours. This, with other minor improvements, saves the company thousands of dollars; and they have shown their appreciation by giving Mr. Neff a substantial raise in salary.—The Battalion.

Mr. Marlin, traveling representative of the Fairbanks-Morse Co. of St. Louis was here yesterday to see the Stevenson Machine and Repair Works people on matters of business.

Mrs. G. M. Brandon left yesterday for Austin to visit her son, G. M. Brandon, Jr., who is attending the state university.

Prof. John A. Lomax attended the Methodist conference at Hillsboro Saturday and Sunday.—The Battalion.

The Misses Montgomery of Stockville, Miss., are the guests of their sister, Mrs. Weir.—The Battalion.

Burt Norwood and Sam M. Winters spent yesterday hunting on the Navasota river.

LETTERS AND TELEGRAMS.

These Were Introduced Over Protest of
the Defense.

St. Louis, Nov. 22.—The introduction
of letters and telegrams exchanged be-
tween Senator Burton and Thomas
B. Harlan, an attorney for the Rialto
Grain and Securities company, was the
feature of the second day of the trial
of United States Senator Burton of
Kansas.

The defense objected to the intro-
duction of these documents on the
ground that the contents were not per-
tinent to the allegations made in the
indictment. Mr. Harlan was placed

SENATOR J. B. BURTON OF KANSAS.

on the stand by the government and
called upon to identify letters, press
copies of letters sent by him to Sena-
tor Burton and originals of letters re-
ceived by him from Senator Burton.

The first letter submitted was dated
Nov. 18, 1902, addressed to Senator
Burton and signed by Harlan. Follow-
ing is an excerpt from this document:

"I hope you received my message to
the effect that this company (meaning
the Rialto company) accepts, your
terms to act as counsel at a salary of
\$500 a month, said service to begin im-
mediately, that it of this date, Nov. 18,
1902."

In reply Senator Burton wrote Har-
lan in part as follows: "I called at the
department this morning and find that
there are two complaints against your
company—one by Bella Evans and the
other by Mrs. K. C. Hont, both of Al-
bany, N. Y. Without knowing anything
about the merits of the same, I would
advise that all complaints receive spe-
cial attention by your company. No
action of any kind will be taken
against you without my first being
notified and every opportunity for a
full explanation or hearing will be had.
In return, if agreeable, you may make
remittance for my first month's pay."

A number of other advisory letters
from Senator Burton to the company
were read.

Four checks for \$500 each, sent by
the Rialto company of St. Louis to
Senator Burton while he was in Wash-
ington, were submitted by the govern-
ment and while objected to by the de-
fense on the ground of irrelevancy,
Senator Burton acknowledged the en-
dorsement on their back.

FUN ENDS FATALLY.

Car With Young Men on It Hit and
One Cut to Pieces.

Longview, Tex., Nov. 22.—Six merry
young men who had attended a circus
here Tuesday night were returning to
Gladewater, their home, on a hand car.
About 10 o'clock Wednesday morning
the car was struck by a freight train.
One of them, named Herschel Cazaniss,
was cut to pieces and the remainder
jumped down an embankment. The
hand car was wrecked. Cazaniss' re-
mains were strewn along the roadbed
for fully 100 yards.

TABOR PRAISED.

Commended For His Activity in Keep-
ing Out Yellow Fever.

Austin, Nov. 22.—State Health Offi-
cer Tabor received copies of resolutions
adopted by the Jefferson County Med-
ical association commending him for the
fearless stand he took in keeping
yellow fever out of the state, also con-
demning and characterizing as false the
story printed to the effect that there
had been fifteen cases of yellow fever
in one of the counties of the state.

Judge A. W. Terrell had a confer-
ence with the governor regarding ap-
plication of the committee of members
of the house and senate of the last leg-
islature to call an extra session. At
the end of the conference the governor
had nothing to say relative to what action
he will take in the premises.

Insurance Commissioner Clay issued
a statement calling attention to the im-
portance of the meeting of policy hold-
ers which he held at San Antonio Fri-
day, at which time permanent organi-
zation will be held.

NEGRO ASPHYXIATED.

Seven Others Were Seriously Affected
by Leaking of Ammonia.

Houston, Nov. 22.—A leak in an am-
monia pipe in the cooling rooms of the
Houston Packing company asphyxiated
Steve Johnson, colored, and seriously
affected seven other negroes in the
same department. The injured were
conveyed to a hospital.

H. A. Halverson, former alderman,
has sued the city for \$1500 damages,
alleged to have accrued by reason of
installation of present commission form
of government. Halverson and col-
leagues in the city council had not
served out their term of office when
the new charter went into effect and
were ousted, hence this suit. If suc-
cessful, it would mean a loss to the city
of about \$150,000, as it involves twelve
aldermen.

IDENTITY ESTABLISHED.

Depew's "Rambunctious Friend" Is
Named W. S. Manning.

New York, Nov. 22.—The identity of
Senator Depew's "rambunctious friend"
up the river" was disclosed in the ses-
sion of the state legislative insurance
investigation committee, by the testi-
mony of John A. Nichols, a lawyer un-
der retainer by the Equitable Life As-
surance society. Mr. Nichols had writ-
ten Senator Depew a letter referring
to an individual in the above terms,
and this letter was read when Senator
Depew was on the stand. The senator
was unable to recall who was called
the "rambunctious friend." But Tues-
day Mr. Nichols disclosed a series of
payments to W. S. Manning of Albany,
a former actuary, who had been con-
nected with the investigation of insur-
ance companies in 1887. Mr. Hughes
inquired as to a report that Mr. Man-
ning had been in possession of infor-
mation that was suppressed during the
investigation, and that it would have
been detrimental to the Equitable. Mr.
Nichols could not recall the suppres-
sion of information, but he detailed the
payment of sums of money over a
considerable period to Manning, as an
inducement to give up his business as
actuary in which capacity he believed
Manning was a menace to the Equita-
ble Life.

Mr. Nichols said he was paid a re-
tainer from the Mutual and New York
for the same purpose, that is, taking
care of Manning," as Mr. Hughes char-
acterized it, and the payment by the
Equitable for Manning was made to
Nichols on vouchers bearing false
names which Mr. Nichols said was
done to protect Manning.

MANNING MAD.

"If They Want to Hear From Me, Let
Them Call Me."

Albany, Nov. 22.—When W. S. Man-
ning of this city was told of the part
his name had played in the New York
investigation, he replied with consid-
erable heat:

"If they want to hear from me, let
them call me before the committee. I
can tell Mr. Hughes a few things. The
place where he should turn his search-
light is not so much on the officers of
the insurance companies as on the in-
surance department. The department
is much to blame—usually to blame,
whether its official knew what was go-
ing on or not—because if they did not
they were incompetent."

SIMS SWINGS.

Negro Who Kills Deacon Jones Makes
a Full Confession.

Memphis, Nov. 22.—A special to the
Commercial-Appeal from Coahoma,
Miss., says: Dave Sims, the negro who
shot and killed R. F. (Deacon) Jones
at his home one mile from Baugh sta-
tion, in this county on Sunday night,
was lynched by an armed mob at the
scene of his crime shortly after mid-
night this morning.

Sims was captured shortly after 9:30
o'clock Tuesday night by a posse and
immediately brought to this place.
Several citizens interviewed the black
at the store where he was taken for
safe keeping, to whom, they state, he
made a full confession. The fact being
established, the negro was placed
aboard a riverside local train of the
Yazoo and Mississippi Valley railroad
and taken to Baugh station, the scene
of the crime. About sixty men were
in the party. When the station was
reached he was immediately taken to
the scene of the crime, and without
any excitement, strung up to a nearby
tree.

After the hanging the crowd boarded
the train and returned to Coahoma.

LAVIN RELEASED.

This Done in Consideration of Valuable
Service Rendered.

Kansas City, Nov. 22.—"Patsy" Lav-
in, who was arrested in Kansas City
Nov. 5, on information received from
Waco, Tex., where he had been indicted
on charge of robbing the postoffice at
Rockdale, Tex., was released from the
county jail here. The Federal officers
here released Lavin upon receipt of in-
formation from Texas that the charges
against him there had been dismissed.
Lavin, who is known by every postoffice
inspector in the country and every
United States secret service man in the
west, owes his release, it is said, to a
service he rendered the postoffice in-
spectors in St. Louis a few years ago
when he was in the Missouri penitentiary.
He gave them information which led
to the arrest of Jerry Kohler and John
Fickley for the robbery of the
postoffice in the Union Station in St.
Louis in 1901. Fickley was sentenced
to the penitentiary for life and Kohler
was given a long term in prison.

TERRIBLE AFFAIR.

Indian Shot Before Dying Tears Off
Other Man's Head.

Hitchcock, Okla., Nov. 22.—Jimmie
Bluid, a Cheyenne Indian, and J. H.
Hobbie, were both killed near Hitch-
cock as a result of Hobbie and his
brother hunting rabbits on Bluid's al-
lotment. Hobbie had shot a rabbit and
was fired upon from ambush. A second
shot penetrated Hobbie's bowels and
he lived but fifteen minutes. Before
dying he fired his shotgun at Bluid,
tearing off the Indian's head. Hobbie
leaves a wife and one child.

The Origin of Horseshoes.

The earliest form of the horseshoe
was a leather boot worn by heavy war
horses. The ordinary war horses of the
Greeks, Romans and Persians went un-
shod, though methods of hardening the
hoof were occasionally resorted to.
The very earliest records of metal
horseshoes is found in a manuscript
of Pope Leo VI., who died in the year
911 A. D., but it is known that they
were used at a much earlier date, as
real metal shoes of that character have
been found in tombs known to date
back to the sixth century. The oldest
oriental forms of horseshoes were cir-
cular in shape and fastened with
flanges which clamped the sides of the
hoofs.

CHARLES OF PORTUGAL.

Ruler of That Kingdom Returning Visit
of President Loubet.

Paris, Nov. 22.—King Charles of Por-
tugal has arrived here to return Presi-
dent Loubet's visit to Lisbon. The king
was met at Dauphine railroad station
by M. Loubet and Premier Rouvier, and
escorted with imposing military honors
to the foreign office, where royal quar-
ters had been established. The king will
remain here three days and be enter-
tained with state dinners, a gala per-
formance at the opera, a military review
and a hunt. Streets and public buildings
are elaborately decorated.

ters had been established. The king will
remain here three days and be enter-
tained with state dinners, a gala per-
formance at the opera, a military review
and a hunt. Streets and public buildings

TRADING ACTIVE EARLY.

Quotations Toward Last Were From
Four to Five Points Lower.

New York, Nov. 22.—Cotton market
opened steady at a decline of 4 to 11
cables. Trading was very active at
points in response to disappointing
cables. Trading was very active, sen-
timent was feverish and unsettled, with
bulls holding off for re-action to buy,
while the chief support came from
shorts, who had little chance to cover
on excited advance of Tuesday. Prices
moved up to practically closing figures
of Tuesday soon after opening in sym-
pathy with firmness in New Orleans,
but trading became less active toward
the middle of the morning. Quotations
were about 4 to 5 points net lower un-
der continued realizing and selling by
scalpers. Weather in the south is good
and receipts heavy, but private wires
claimed very firm in interior of holders
at advancing prices.

OPENED EXCITED.

Cotton at Liverpool Was Thirty-Six
Points Higher Wednesday.

Liverpool, Nov. 22.—In consequence
of glimmers' report and higher American
prices the cotton market here Wednes-
day opened excited and 33 to 36 points
higher. Afterward fluctuations were
normal and at noon values were 32 to
33 points over Tuesday's closing quotations.

Declined at New Orleans.

New Orleans, Nov. 22.—The New Or-
leans cotton market opened unchanged
to 1 point down, and in the first few
minutes trading showed a further de-
cline of 7 to 8 points. Failure of Liv-
erpool to respond fully to Tuesday's
sensational rise in American markets is
regarded as responsible for the down-
ward tendency. During the first half
hour the market was nervous.

HORSES GO EAST.

Four Trainloads Have Been Sent From
Rancho Del Paso.

Sacramento, Cal., Nov. 22.—Four spe-
cial trains operating on passenger
schedules are carrying to New York
a shipment of horses from Rancho del
Paso. John Mackey, superintendent of
the Haggan ranch, accompanied by
General Agent W. H. Shedaker, of the
Illinois Central railroad, traveled in the
last car of the fourth special. The ship-
ment is understood to be valued at \$1-
000,000 and is insured for practically
that amount. The cost of transporta-
tion of the 600 horses to New York is
about \$60,000. There is a foreman for
each train and two grooms to each car.

SIXTY RIFLES SEIZED.

Dozen Parties Alleged to Be Plotters
Taken Into Custody.

Havana, Nov. 22.—Sixty Remington
rifles were seized by the police Tues-
day night in a raid on a house near
San Juan de Martinez, province of
Pinar del Rio, in which fifty anti-gov-
ernment plotters were meeting. A doz-
en of the latter were captured. Colonel
Julian Cruise, a prominent citizen of
Pinar del Rio, has been arrested in con-
nection with the anti-government
movement and will be tried.

SUSPECT ARRESTED.

Several Fresh Cuts Were Found on His
Head and Face.

Chicago, Nov. 22.—Frank Vochla was
arrested on suspicion of being the mur-
derer of Miss Maude Reese, a stenog-
rapher, who was killed Tuesday night
by a burglar whom she found in her
apartment. Vochla has several fresh
cuts on his head and face and this led
to his arrest, as the murderer of Miss
Reese dashed through a window in
making his escape.

Main Shaft Broken.

London, Nov. 22.—The British steam-
er Lord Dufferine, from Port Talbot for
Galveston, was towed to Queenstown
by the British steamer Capalla, from
Galveston for Liverpool. The main
shaft of the Lord Dufferine broke
Tuesday.

Date Postponed.

Washington, Nov. 22.—The date for
the exchange of the ratified treaty be-
tween Russia and Japan, which was
set for Wednesday, has been post-
poned.

The President of the United States

Proclaims that Thursday, the 30th day
of November shall be set

MUCH MONEY MISSING.

Two Hundred and Fifty Dollars Stolen
From Landlady.

Houston, Nov. 22.—Mrs. Lola J.
King, conductor of the National ho-
tel, reports the theft of \$250 in money.
The police Monday night investigated
and at midnight a warrant was issued
by Attorney S. B. Ehrenworth for the
search of the house occupied by a ne-
gro in the outskirts of the city. Nothing
was found. The money was con-
cealed, as Mrs. King avers, beneath
the corner of the matting of her room.
It was in \$20 gold certificates and re-
presented her entire earnings.
